Dear Leandros,

I am a recent INSEAD MBA grad with a an internet-related new venture in mind. I found you through your entrepreneur.com presence.

Thanks for visiting the site. If you find yourself thinking of hiring a coach or advisor, please feel free to give me a call. I would be happy to discuss ways I would be able to help.

If you're planning on financing the venture through the U.S. VC community, my one word of advice is to make sure your venture is either infrastructure-related or has a very compelling revenue model. Now that the NASDAQ is tanking, folks are thinking about business fundamentals again.

Sincerely,

Stever
